FOR LIMITED PERIOD ONLY
Trade in your old Multi Brand Diagnostic Tools to receive discount on new Delphi VCI

Contact your local Delphi distributor today.

New Delphi VCI:

♦ Flight Recorder Function – allows the user to record live data from any system, without having the PC attached
♦ Improved Bluetooth range and connection
♦ 12volt and 24volt compatible – no extra leads required
♦ LED function lights, give you confirmation of communication
♦ Audible Low Battery Voltage indicator
♦ Robust casing
♦ Built in 16pin LED light to help find those hidden sockets
♦ Replaceable 16 pin plug and lead
♦ Advanced circuitry for quicker communication
♦ Anti slip cover

Not Just Quality. Delphi Quality.

Euro5 Pass Thru Device

Euro5 Pass Thru Device SV11330

- Interactive LEDs to show status
- Dedicated Delphi Website
- Automatic loading of Delphi software
- Multi-protocol support
- CAN (ISO 11898-2, J2284)
- Diagnostics-on-CAN (ISO 15765)
- ISO 9141-2/KWP2000
- Ergonomic Design
- Anti-slip rugged rubber design

Euro 5 "Pass Thru" (ISO22900 or SAE J2534) is a standard for downloading software to a vehicle ECU with a generic, independent tool. The regulation gave the independent aftermarket the possibility to reprogram ECUs. It started with the emissions related ECUs, extended on some vehicles. Delphi Euro 5 VCI is a tool that allows you to download new software to some of the reprogrammable electronic control units of Euro 5 type approved vehicles, without purchasing the manufacturer tool.

Having a dedicated Euro 5 interface is more practical, leaving your diagnostic tool free for other tasks in the workshop. Some vehicle ECU updates can take more than 12 hours!

Car Cable Package

CAR CABLE KIT (PRE-16PIN) - CAR / VAN
11 Cables in a Heavy Duty Carry Case
SV10365

Part Number	Descriptions of Cables Included
SV10202	2+2 pin Audi / VW
SV10204	10-pin Opel

Truck, Bus and Van VCI Packages

DS150E Truck Kit
SV11339

The **DS150E**, designed for customers who wish to use their own Windows PC.

The OBD cables included in this kit are:
38 Pin Iveco / 30 Pin Iveco / 14 Pin Mercedes / 8 Pin Volvo / 16 Pin DAF / Scania / 12 Pin MAN / 37 Pin MAN / 12 Pin Renault / 9 Pin Deutsch/Cummins / 3 Pin Fiat / 30 Pin Iveco / Mitsubishi Fuso/Canter

The **DS350E** package includes a dedicated and tested PC, able to withstand the workshop environment, and can be used as a touch screen tablet or as a conventional style laptop.
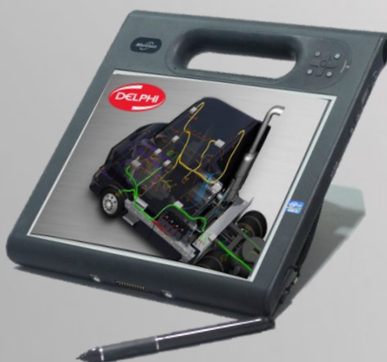

The OBD cables included in this kit are:
38 Pin Iveco / 30 Pin Iveco / 14 Pin Mercedes / 8 Pin Volvo / 16 Pin DAF / Scania / 12 Pin MAN / 37 Pin MAN / 12 Pin Renault / 9 Pin Deutsch/Cummins / 3 Pin Fiat / 30 Pin Iveco / Mitsubishi Fuso/Canter

DS350E Truck Kit
SV11340 UK

The **DS450E** is a dedicated and tested, touchscreen tablet PC, with a protective case to help it withstand the workshop environment.

DS450E Truck Kit
SV11447 UK

The OBD cables included in this kit are:
38 Pin Iveco / 30 Pin Iveco / 14 Pin Mercedes / 8 Pin Volvo / 16 Pin DAF / Scania / 12 Pin MAN / 37 Pin MAN / 12 Pin Renault / 9 Pin Deutsch/Cummins / 3 Pin Fiat / 30 Pin Iveco / Mitsubishi Fuso/Canter

The **DS650E** is a hardware package which includes a dedicated and tested, rugged touchscreen tablet PC, specially designed to withstand the workshop environment.

The OBD cables included in this kit are:
38 Pin Iveco / 30 Pin Iveco / 14 Pin Mercedes / 8 Pin Volvo / 16 Pin DAF / Scania / 12 Pin MAN / 37 Pin MAN / 12 Pin Renault / 9 Pin Deutsch/Cummins / 3 Pin Fiat / 30 Pin Iveco / Mitsubishi Fuso/Canter

DS650E Truck Kit
SV11469 UK

Automotive Picoscope Kits

Delphi Pico Scope & enhanced Delphi Software

Delphi Pico Scope is an essential diagnostic tool to break down complex electrical signals, to analyse root causes of a fault.

Part Number	Description	Price (EUR)
SV11386	Picoscope (2 Channel)	€
SV11387	Picoscope (4 Channel)	€

- Built in waveform library
- Auto ranging
- Advance trigger functions
- Help files
- Frame review finder
- Free Software updates
- Training courses available
- Delphi exclusive software included

Advantages for the Technician:

Faster, more efficient diagnostics saves time and money

The Delphi Pico Automotive Diagnostics Kits can be used to measure and test virtually all of the electrical and electronic components and circuits in any modern vehicle including:
Ignition (primary and secondary), Injectors and fuel pumps, Starter and charging circuits, Batteries, alternators and starter motors, Lambda, Airflow, knock and MAP sensors, Glow plugs / timer relays, CAN bus, LIN bus and FlexRay

DS HD/LCV Software

Part Number	Description	Price (EUR)
SV10821	Heavy Duty Software License 1 Year - PC	€

Latest software Version for 2014: 2.14.1
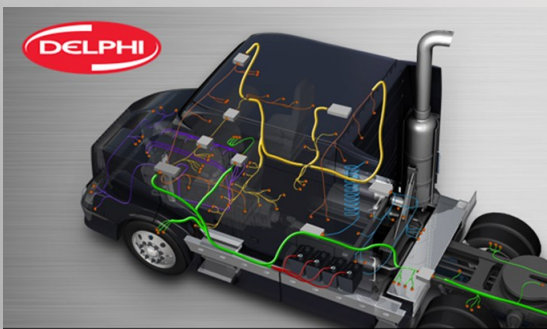

Delphi Truck Software supports diagnostics on:
 45 Vehicle Manufacturers
Over 2700 models
more than 51,000 vehicle systems

Trucks include: Alexander Dennis, Allison, DAF, Dennis Eagle, Iveco Trucks, Kamaz, MAN, Mercedes Truck, Nissan Trucks, Plaxton, Renault Trucks, Scania, Volvo Trucks

Buses (chassis based) include: Evobus, Irisbus, Man Bus, Scania Bus and Volvo Bus

Trailers include: Haldex, Knorr, Wabco including ABS, EBS and TEBS EBS Systems

OBD Truck, HCV and Trailer Cable Kits

TRUCKS, HCV, LCV AND TRAILERS CABLE KIT
17 Cables in a Heavy Duty Carry Case
SV10831

Part Number	Descriptions of Cables Included
SV10202	Audi / Volkswagen OBD C able Power Supply
SV10209	3-pin Fiat
SV10203	14 pin Mercedes
SV10211	38-pin Mercedes
SV10481	First Generation F.V.V. OBD Cable
SV10822	8-pin Volvo
SV10823	16-pin Scania / DAF
SV10824	12-pin MAN
SV10825	37-pin MAN
SV10826	12-pin Renault Truck
SV11050	38-pin Iveco
SV10827	4-pin Haldex Trailer
SV10828	7-pin Knorr / Wabco trailer
SV10829	4-pin Haldex (ECU) Trailer
SV11049	7-pin ISO 7638 Trailer Test Cable
SV10833	30-pin Iveco

TRUCKS HCV AND TRAILERS CABLE KIT
11 Cables in a Heavy Duty Carry Case
SV10830

Part Number	Descriptions of Cables Included
SV10822	8-pin Volvo
SV10823	16-pin Scania / DAF
SV10824	12-pin MAN
SV10825	37-pin MAN
SV10826	12-pin Renault Truck
SV10827	4-pin Haldex Trailer
SV10828	7-pin Knorr / Wabco trailer
SV10829	4-pin Haldex (ECU) Trailer
SV10203	14-pin Mercedes
SV11049	7-pin ISO 7638 Trailer Test Cable
SV10833	30-pin Iveco

OBD TRAILER CABLE KIT
6 Cables in a Heavy Duty Carry Case
SV11341

Part Number	Descriptions of Cables Included
SV10827	4-pin Haldex Trailer
SV10828	7-pin Knorr / Wabco Trailer
SV10829	4-pin Haldex (ECU) Trailer
SV11327	4+4 pin Haldex Trailer Cable
SV11049	7-pin ISO 7638 Trailer Test Cable
SV10833	7-pin Knorr-Bremse

SV11445

Electronic Injector Test Kit (Buzz Tool)

This first-of-its-kind all-makes tool is a handheld device that is quick and easy to use with simple steps and clear menus.

With fast connection to the common rail injector whilst on or off the vehicle, it quickly performs an electronic diagnosis and detects electronic failure, saving you a great deal of time.

Electronic Injector Test Kit YDT720

Kit Contents:

- Carry case and user manual

- "Buzz Tool" handheld device

- Croc' clip insulation lead (green)

- Croc' clip supply lead (red/black)

- A set of 8 injector adaptors that covers the whole range of known Common Rail solenoid injectors
(Delphi and All-makes)

- 4mm adaptor for use with Mini BOBs

Electronic Injector Test Kit Capabilities:

➢ Fast check and indication for a coil open circuit, short circuit or insulation failure

➢ If the above tests are passed the tool goes onto measure the most important electrical characteristics (resistance/inductance) of the injector coil

➢ Finally, it will drive the valve to make it 'buzz' to ensure the valve is not stuck open or closed

➢ All this in less than 1 minute per injector!

Advantages for the Technician:

➢ The technician can easily perform a quick, accurate diagnosis of the electrical part of a common rail solenoid injector, on-vehicle or off-vehicle.

➢ Measure coil resistance and inductance. Injector coils have very low resistance and inductance, not all can be measured with a standard digital multimeter and the inductance would have to be measured with a milliohmeter

➢ Both these measurement are required to accurately determine the ciols health. Measurements are compared to the other Cri in the set with any value being 20% higher than the other injectors highlighting a failure

➢ Bosch, Siemens, Denso systems do not have a drive routine integrated in the ECU software, therefore the function is impossible without the Delphi Buzz Tool

Not Just Quality. Delphi Quality.

Sealed Rail Diagnostic Package   (replaces YDT278)

Provides simple, low-cost diagnostic capability for pumps and injectors on Common Rail Systems made by all major manufacturers.

Setting the benchmark for hydro-mechanical diagnostics, the Delphi Sealed Rail Kit provides simple, low-cost, on-vehicle test capability for all makes of Common Rail pumps and injectors.

Sealed Rail Diagnostic Package
YDT850

YDT850 Kit Contents:
- **YDT860** = 2013 Updated Sealed Rail Kit
  (Component Kit – not offered on its own)
- **YDT586** = Updated Complete Backleak Kit
  (individual Backleak adaptors are not included in YDT860)
- **YDT377** = 500ml Backleak Bottle
  to facilitate global backleak collection and low pressure diagnostics

YDT850 - Features & Benefits:
Identifies faulty component (pump, injector) within CR system
- On-vehicle testing—prevents need for complete system removal
- Measures pressure generated by CR pump
- Measure back-leakage for each individual injector
- Compatible with Delphi, Bosch, Denso and Continental Systems

False Actuator Kit
YDT410

YDT 410 - Features & Benefits:
Works in conjunction with Delphi Sealed Rail Diagnostics Kits YDT860 & YDT850
- Low cost investment to obtain increased level of diagnostics
- Identifies internal faults within CR pumps

Complete Diagnostic Test Equipment (TE) Package

Diagnostic TE Package
YDT732

YDT732 Kit Contents:
- **YDT850** = Complete sealed rail package 2013
- **YDT410** = False actuator kit
- **YDT747** = Bosch CP4 False Actuator to complete

YDT410
worth £33.45 if purchased individually

Also   YDT200 (Engine vac., CRi remover and Washer extractor - worth £200

Delphi Fuel Analyser

Measures bio-diesel in diesel

Delphi's Fuel Analyser is a first level diagnostic check of bio-fuel in the system and will assist the technician to diagnose if the fuel quality is a possible cause for system / component failure.

Delphi Fuel
Analyser
YDT553

Fuel diagnostics – Why check the levels of biofuel in diesel?

The use of contaminated fuels, or biofuel blends above the recommended standards, increases the risk of engine related issues. The Delphi fuel analyser can significantly reduce costs for the workshop, vehicle owner or operator. It provides the ability to quickly carry out a fuel check and produce an end user customer report.

Features & Benefits

First phase fuel analysis for diesel / biodiesel; Displays biodiesel percentage +/- 1%; Identifies contaminated fuel; Hand held robust enclosure; Provides customer print-out of analysis; Programmable limits and error codes; Real time results; Rechargeable battery charged by mini USB; Software download, Data output via USB; Simple display / Stainless steel easy clean sensor

Injector Washer Extractor with Long Nozzle

Description:

This tool is designed for removing flame arresting washers jammed in deep injector wells.

works on all makes, multi applications
Supersedes YDT203

Injector
Washer
Extractor
YDT256
